

ELEVATE

MOVABLE SWIMMING POOL FLOOR

Revolutionary Technology | Make Any Pool a Multipurpose Facility

Sportstad Heerenveen
Heerenveen, Netherlands

ELEVATE

- Increase revenue through variable programming
- Eliminates complicated drive units
- Cost effective quick installation
- Buoyant technology allows for installation in virtually any pool
- Provides the right water depth for any activity: Infant water orientation, learn to swim, water aerobics, deep water competition, etc.
- Accessibility. Eliminates need for ramps and lifts
- Reliable and virtually maintenance free
- Slip resistant and durable solid polymer surface (available in a variety of colors)
- Modular construction allows components to be carried through a standard doorway
- No need for multiple pool shell penetrations
- Available with trailing ramp or bulkhead closure
- Ideal for instructional and therapy pools

Utilizing buoyant technology and a simple drive system, ELEVATE makes including a movable floor feasible for any facility!
