

AQUATIC DEVELOPMENT GROUP, INC.

ENGINEER - MECHANICAL/ELECTRICAL

Aquatic Development Group (ADG) is a recognized national and international, award-winning leader in the planning, design and construction of indoor & outdoor aquatic based family entertainment, leisure and recreational facilities. As an industry leader for 40 years, ADG has focused on innovative design, engineering and construction techniques resulting in unique, imaginative, playful and fun water parks and water attractions.

Current workload calls for the immediate addition of talented, experienced and imaginative individuals to complement and expand our office. ADG is seeing a staff engineer to support our architectural and aquatic studios in the development of concepts and designs relating to mechanical ventilation and electrical systems for indoor water parks. Engineers' duties include systems research, code review, consultant management and submittal review.

Candidates should have a minimum of five years professional experience and a degree in mechanical or electrical engineering. Licensing preferred but not required.

ADG offers competitive benefits and is dedicated to the spirit of teamwork and the intellectual growth of its staff. ADG is located in the Albany Capital District/Hudson River Valley region of New York State, the gateway to the Adirondacks and less than 3 hours from New York City, Boston and Montreal. For more about ADG visit our website www.aquaticgroup.com.
