

# project services case study

Mountain Creek  
Vernon Valley, NJ

**ADG** was responsible for the re-design, engineering, and construction of many features at Mountain Creek, formerly Action Park. The transformation of these attractions has rejuvenated the facility into a state-of-the-art family waterpark that has seen a tremendous growth in attendance since reopening.

The renovation of the 27,000 sq. ft. wave pool included a new WaveTek® Wave System with a Whitten® Filter System, an adult spa, and a childrens slide. All features were designed with an Adirondack theme.

A new childrens area was built that incorporated a Kiddie River, Water Slide, and various Fountain Geysers with bubbles.
