

# COMMERCIAL POOL EQUIPMENT

## ADG Movable Pool Floors

### Expand your Aquatic Programming Ability!

ADG is North America's only manufacturer of Movable Floor Systems for swimming pools. Our state-of-the-art design combines stainless steel, engineered resins and programmed control systems to create a movable pool floor that is easy to use, reliable and durable. Our revolutionary technology allows you to easily adjust a pool to exactly the right water depth for any activity or program, providing you with flexibility and unlimited possibilities. Retrofit an existing pool or design and engineer a new facility from start to finish.

### Enhance Facility Usage

- Multiple pools in one
- Provide wider range of program opportunities
- Extend access to persons with disabilities and elderly
- Raise floor for additional deck space

### Improve Operational Efficiencies

- Cost effective and easy to maintain
- Achieve greater flexibility in program schedule
- Generate increased revenue in a smaller footprint

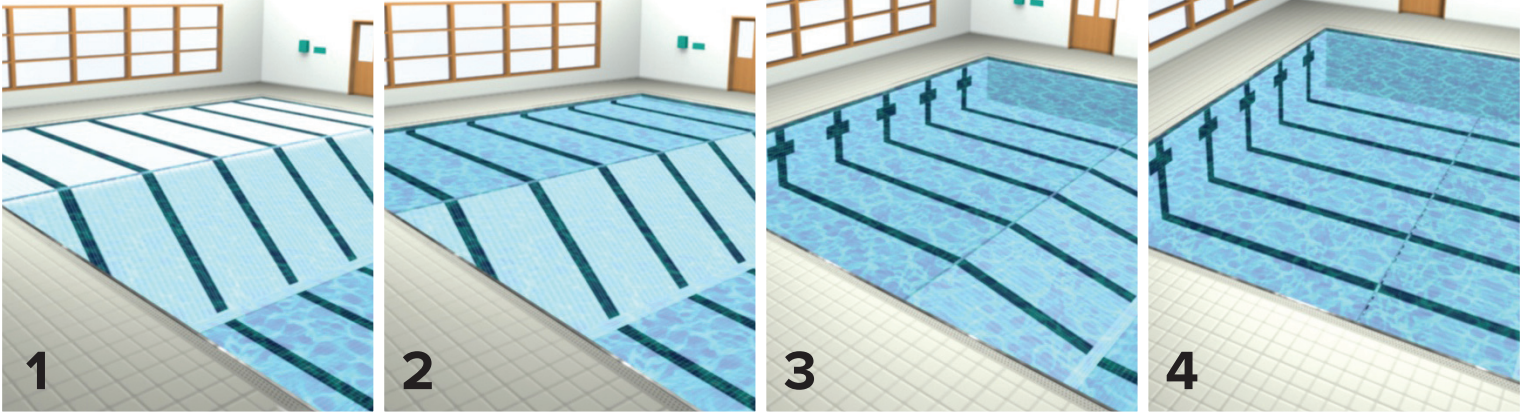

## Competitive Advantage

- Floor easily adjusts to accommodate multiple aquatic programs
- Significantly lower cost than expanding building and/or constructing multiple pools
- Increase program offerings and schedules

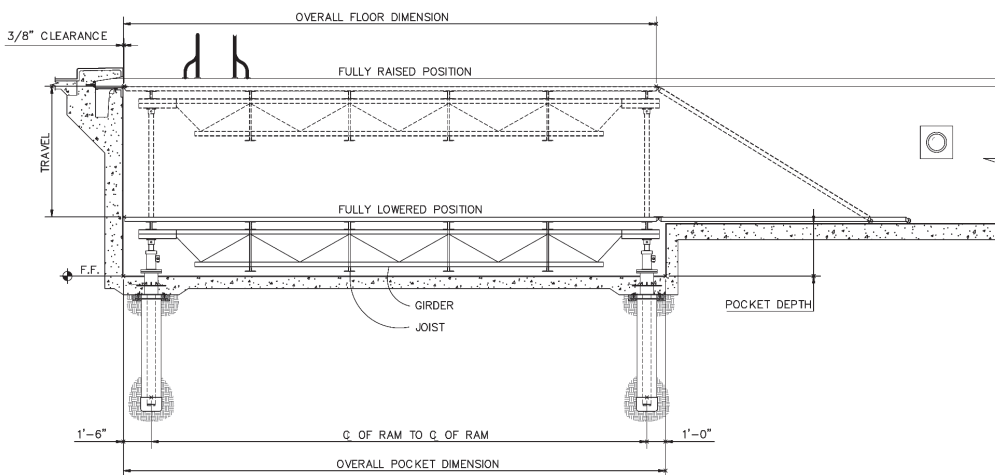

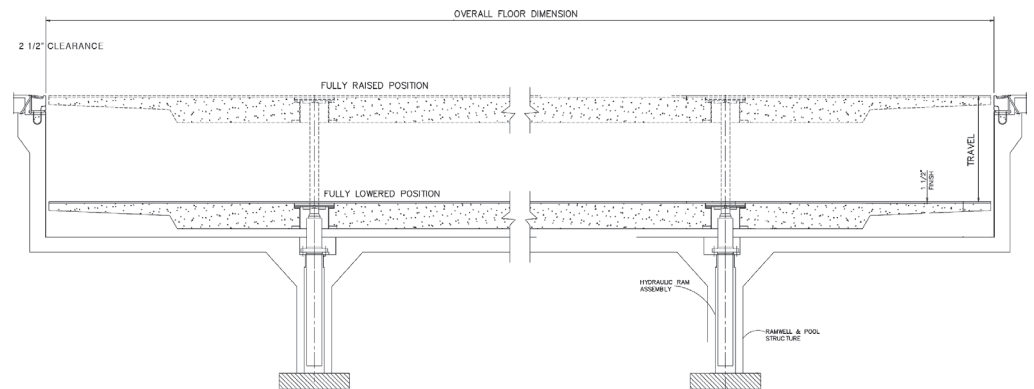

## Cosmetic Appeal

- Reinforced concrete or non-skid PVC surfaces
- Finished surfaces compatible with existing pool structure
- Variety of finish options available (concrete only)

## Innovative Design & Engineering

### CONCRETE DECK

### COMPOSITE DECK
