THE WORLD'S LEADER IN WAVE GENERATION TECHNOLOGY

When you work with ADG, you are working with the undisputed leader in wave generation technology for more than 40 years. ADG's InDepthTM approach means our team is dedicated to helping you create the perfect wave for any application. ADG has installed over 90% of the recreational wave systems in operation throughout North America and our exclusive WaveTek® technology can be found in over 400 facilities worldwide.

ADG WAVETEK® WAVE GENERATION

PIONEERING ADVANCEMENTS IN WAVE TECHNOLOGY SINCE 1980
ADG’s exclusive WaveTek® Wave Generation Systems are designed to make a splash and deliver exactly the type of application you need. As the leading manufacturer of wave generation equipment, ADG has long been known for its innovative products and for setting the standard in wave technology.

Our designs and developments have resulted in more patents and unique configurations, creating the most comprehensive family of wave generation system options available.

★ WAVETEK® INDUSTRY FIRSTS ★

- FIRST U.S. PNEUMATIC SYSTEM
- FIRST TSUNAMI SOLITARY WAVE TECHNOLOGY
- FIRST 6 FOOT PNEUMATIC PARALLEL WAVE
- FIRST LAZY RIVER WAVES
- FIRST VARIABLE WAVE PATTERN PROGRAMMER

RECREATIONAL WAVES
ADG provides more options for on-demand and pre-programmable wave pattern sequences than any other company in the market. Our combination of innovative pool designs and wave caisson configurations allows you to create one-of-a-kind experiences that other wave system designers and manufacturers simply cannot replicate.

Provide your guests with the ultimate wave pool experience - easy to own and easy to operate!

Recreational Wave Pools - pg 3
River Waves & Smaller Pools - pg 4
High Performance Surf Pools - pg 5
ADG’s VaraWave™ Technology - pg 6
HIGHEST QUALITY CONSTRUCTION
Making waves is tough on equipment, so our stainless steel construction is built stronger to last longer. And because we manufacture all of our own wave equipment, we ensure excellent quality control and on-time delivery. Our expertise translates to profitability for our clients as our waves, and the equipment that powers them, are built to entertain, and built to last.

GUARANTEED PERFORMANCE
ADG prides itself on having the highest quality, redundantly engineered wave system control panel on the market. Designed with the utmost in operator flexibility, safety and reliability, our built-in redundancy features mean no single point of failure, so you always have waves in your pool.
- Control panel override
- Circuit breakers for short circuit protection
- One-touch button operation

RAPID SERVICE & SUPPORT
ADG’s wave technicians are some of the most experienced in the industry. Our service department is always available to resolve any emergency situation quickly and efficiently, reducing down time and saving you money.
- Year-round support
- Parts & supplies
- Engineering assistance

PROUDLY MADE IN THE USA
ADG fabricates all of its wave generation equipment in its state-of-the-art manufacturing facility in Upstate New York. With in-house precision CNC controlled machining and forming equipment, only ADG can guarantee the quality and consistency of your wave system from start to finish.
SEAWAVE™
*Solid Diamond Wave Performance.* Reliable wave performance in an economical package.

AQUAWAVE™
*The Most Comprehensive Wave System Package on the Market.* Designed to last, this workhorse system has a proven track record, is full of features, and comes with our exclusive VaraWave™ technology already built in!

---

**FEATURED COMPONENTS**

- multiple wave patterns
- manual diamond back-up
- triple-dip motor protection
- stainless steel construction
- stand-by motor heaters for condensation control
- non-overloading wave blower
- solid state reduced voltage starters
- splashguards
- fused control wiring
- valve & blower in-concrete anchors

---

SHOREBREAK™
*Exceptional Roller Wave Performance from 3ft - 6ft.* A unique staggered caisson wave chamber configuration that produces larger roller waves with less energy consumption than any other competitive system on the market.

*Includes all the featured components of our AquaWave system.*
**AQUAWAVE™**  
The Most Comprehensive Wave System Package on the Market.  
Designed to last, this workhorse system has a proven track record, is full of features, and comes with our exclusive VaraWave™ technology already built in!

**SEAWAVE™**  
Solid Diamond Wave Performance.  
Reliable wave performance in an economical package.

**SHOREBREAK™**  
Exceptional Roller Wave Performance from 3ft - 6ft.  
A unique staggered caisson wave chamber configuration that produces larger roller waves with less energy consumption than any other competitive system on the market.

*Includes all the featured components of our AquaWave system.

---

**RECREATIONAL WAVE POOLS**  
**RIVER WAVES** & **SMALLER POOLS**

**HIGHTIDE™**  
*High Frequency Diamond and Roller Waves.* Developed for shallow water, our HighTide system provides multiple wave patterns for more variety and fun in water as shallow as 3ft.

**BREAKERS™**  
*Delivering Consistent Rolling Wave Action to Rivers Everywhere.* Our Breakers system, first developed in the 1980’s, provides a gentle yet fun-filled adventure down river.

**TEMPEST™**  
*An Industry First.* The Tempest system utilizes a unique side-wall chamber configuration with remote mounting of the wave generator that allows for quick and easy wave pattern adjustments. Create waves that “match” or “miss” for a rollicking, rolling effect!

**TIDALWAVE™**  
*Big Wave Action.* The TidalWave system produces fast, solitary waves in a small footprint with no gates or valves in the water.
WITH BETTER TECHNOLOGY COMES BETTER ENERGY EFFICIENCY AND BETTER PERFORMANCE.

ADG’s Exclusive Variable Wave Pattern Programmer automatically cycles through multiple pre-selected wave patterns at the touch of a button! Available as an add-on to any of our systems, VaraWave™ Technology has the ability to create up to eight different wave patterns - and is available only from ADG.

TSUNAMI™
*Classic Big Wave Performance*. This high-performance wave system produces large, solitary waves using hydraulic power at intervals from 30 to 90 seconds.

OCEANSWELL™
*The Most Advanced Wave Generator Available*. Our pneumatic system delivers the biggest waves in the most efficient way possible, and with no equipment in the water. Less energy plus less maintenance!

★ WAVETEK™ INNOVATION ★

- 6 FOOT MAXIMUM POOL DEPTH
- HIGH DURABILITY STAINLESS STEEL FABRICATION
- DOUBLE BREAK WAVE POOL FLOOR
- PATENTED VARIABLE WAVE TECHNOLOGY
- STAGGERED CAISSON DESIGN
- GUTTERLESS WAVE POOLS

400+ WORLDWIDE INSTALLATIONS
90% INSTALLS IN N. AMERICA
WITH BETTER TECHNOLOGY COMES BETTER ENERGY EFFICIENCY AND BETTER PERFORMANCE.

ADG’s Exclusive Variable Wave Pattern Programmer automatically cycles through multiple pre-selected wave patterns at the touch of a button! Available as an add-on to any of our systems, VaraWave™ Technology has the ability to create up to eight different wave patterns - and is available only from ADG.
