

FIELD INSTALLATION/SERVICE TECHNICIAN

AQUATIC DEVELOPMENT GROUP

We are currently seeking skilled technicians/mechanics to join our field installation and service team; positions are full-time, permanent with an established Albany, NY area company.

Department: Construction

Reports to: The Director of Construction/Project Management

Qualifications & Experience:

- Strong mechanical skills. Electrical controls and/or welding experience are a plus.
- Ability and willingness to travel extensively throughout North America, as required. This position requires up to 75% travel either regionally or long distance for up to two weeks at a time. Travel expenses paid.
- Ability to read and understand technical drawings and prints.
- Generate daily field reports and job-site photos.
- Must be willing to work as a part of a team, independently and/or supervised.
- Must be willing and able to work outdoors in varying weather conditions.
- Must have good problem solving and communication skills.
- Valid driver's license is necessary.
- Must be comfortable using Microsoft Office software.

ADG offers a competitive benefit package including 401k, medical and dental insurance. Salary commensurate with experience; include salary requirement in your response to jobs@aquaticgroup.com and reference: JOB: FST032016.
