

CLARION BATAVIA

Batavia, New York

CHALLENGE

Palm Island Indoor Waterpark, located at the Clarion Inn Hotel in Batavia, NY, is conveniently located between the Rochester and Buffalo metro areas. ADG met with the park owners to assess their need to increase occupancy and ADRs, and provide analysis and turnkey pricing for their services. ADG was engaged to advise owners on environmental and operational considerations and design & build a 12,000 sqft indoor waterpark.

SOLUTION

ADG provided design/build services for the entire project, from conceptual master-planning all the way through completion. The Palm Island Indoor Waterpark features include: a tropical themed multi-level play structure, various tipping buckets and spray elements, two 3-story enclosed waterslides which exit and re-enter the building, a general swimming lagoon with a water-basketball area, unique themed pools and, for adults, an illuminated warm spa featuring a waterfall. Also featured are a spa, arcade and concessions area designed to accommodate hotel patrons and group events.

RESULT

Delivered on time and on budget, the 12,000 sqft indoor waterpark facility was designed for year-round use by visitors of varying ages and interests, and was the culmination of five years of dreaming and planning by the owners.

“Palm Island Indoor Waterpark is great for children and travelers.”

– Lynn Freeman, President, Chamber of Commerce
