First Ever Tidal River® Ride Debuts at Canobie Lake Park.

In 2018, Canobie Lake Park (Salem, NH) sought out to expand their Castaway Island water area that consisted solely of a multi-level play structure. Canobie Lake chose ADG's Tidal River water ride to be their anchor attraction in this waterpark expansion, along with a new slide tower, kids play area, and increased decking for lounge, cabanas and F&B outlets.

Tidal River® Features:

- Fast-paced, wave action river featuring ADG's Wavetek® TidalWave™ wave system
- 7,500 sqft long, 20' wide
- 5,165 sqft beach entry pool with apron
- Crafted rock work throughout
- Waterfall features

Castaway Island Project Features:

- First-to-market Tidal River® water ride
- 60' tower with three water slides
- "Lil' Squirts Lagoon" kids play area
- 11 private cabanas
- New restaurant
- Tiki bar
- New changing facilities

"ADG's vision of how the Tidal River ride and Castaway Island expansion would come together was second to none. We couldn't be happier with our new ride and can't wait for our guests to experience it."

- Chris Nicoli, Brand Manager,
Canobie Lake Park

Grand Opening
May 2019
